

M+S Hydraulic PLC

Final rules for chemicals under TSCA section 6

August/2021

M+S Hydraulic PLC always avoid using hazardous substances thus to protect the health and environment and fully supports the purposes and matters of the Toxic Substances Control Act (TSCA).

In December 2020 the US Environmental Protection Agency (EPA) released final rules under the Toxic Substances Control Act (TSCA) to reduce exposure to five chemicals that are persistent, bio-accumulative and toxic (PBT) and which prohibit manufacturing and distribution in accordance with TSCA section 6(h), 15 U.S.C 2605(h) as follows:

- Deacabromodiphenyl ether, CAS No. 1163-19-5
- Phenol, isopropylated phosphate (3:1) (PIP (3:1)), CAS No. 68937-41-7
- 2,4,6-Tris(tert-butyl) phenol, CAS No. 732-26-3
- Hexachlorobutadiene, CAS No. 87-68-3
- Pentachlorothiophenol, CAS No. 133-49-3

As always, M+S Hydraulic PLC is clarifying the level of the impact of the TSCA amendment in our production and supplying components. We are now requiring and collecting information, in order to be actual and correct thus to dully inform you and, if needed, to take the respective actions and to be entirely compliant to what is stated and respectively required.
